Contracting Excellence, Reliable Performance

Al Shola Al Mustamirra delivers specialist HVAC and appliance maintenance solutions across Saudi Arabia. With over 13 years of practical field experience, we combine technical excellence, safety-first procedures, and measurable uptime improvements to protect your assets and operations.

- Proven expertise in HVAC and appliance maintenance
- Trusted by residential, commercial, and industrial clients
- Fast response, reliable service, and professional technicians
- Solutions designed to maximize system efficiency and uptime

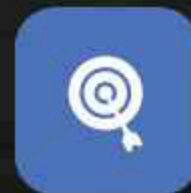

Vision, Mission, Values

Deliver proactive maintenance, rapid repairs, and dependable contracting services that reduce lifecycle costs, improve equipment performance, and ensure uninterrupted building operations.

Vision

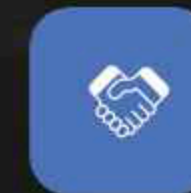

To be the trusted partner for HVAC operations and maintenance across Saudi Arabia, setting the standard for service reliability, safety, and energy efficiency.

Mission

Our mission is to keep your systems running efficiently through reliable maintenance, rapid support, and high quality workmanship.

Commitment

We are committed to delivering dependable HVAC and maintenance services that protect your assets and ensure consistent operational performance.

Approach

Our approach is built on proactive planning, skilled technical execution, and clear communication at every stage of the service process.

Our Core Services

Comprehensive Maintenance & Operations

We offer end-to-end HVAC and building services, including supply, installation, preventive maintenance, emergency repair, and warranty subcontracting for major appliance brands. Our disciplined approach covers system health, performance tuning, and lifecycle planning.

HVAC Systems

Complete supply, installation, repair, and preventive maintenance for all air conditioning systems including split, packaged, central, VRF, and chilled water units.

Ventilation and Airflow Solutions

Specialized solutions for exhaust, fresh air, kitchen hoods, ducting, and industrial ventilation to ensure healthy, balanced, and efficient airflow.

Technical Contracting and Building Services

Comprehensive electrical, plumbing, and facility maintenance services designed to support residential, commercial, and industrial operations.

Specialized Solutions and Enhancements

Advanced HVAC design, cladding, chilled water piping, energy optimization, and long term maintenance programs tailored for high performance and reliability.

Operations & Maintenance

Our Special Services

We deliver complete HVAC, ventilation, and technical contracting solutions for homes, buildings, and commercial facilities. Our team ensures reliable performance, efficient cooling, and long lasting operational stability.

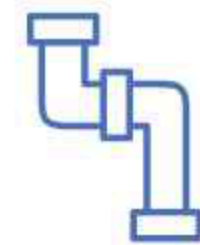

PAGE 5

HVAC System Design

Engineering based design, load calculations, and system selection to ensure efficient and reliable cooling performance.

Chilled Water Piping & Insulation

Complete piping networks with proper insulation and fittings to support large scale chilled water AC systems.

Air Balancing & Performance Optimization

Testing and adjusting airflow to achieve balanced pressure, improved comfort, and maximum system efficiency.

Internal & External Cladding

Durable cladding solutions for residential and commercial buildings, enhancing protection and visual appeal.

Facility Maintenance Contracts (AMC)

Customized annual service plans that extend equipment life and maintain consistent building performance.

Emergency Repair Services

Rapid 24/7 response for critical breakdowns, ensuring fast restoration and minimal operational downtime.

VRF Systems Repair or Installation

We supply, repair, and maintain advanced VRF air conditioning systems, efficient cooling performance with expertly serviced fan coil units and system controls.

Technical Diagnostics & Troubleshooting

Accurate system inspections using professional tools to identify root causes and deliver long lasting solutions.

Our Special Services

We provide specialized HVAC design, chilled water piping, cladding, and air balancing services tailored for high efficiency. Our AMC plans, emergency support, and diagnostics keep facilities safe, optimized, and running smoothly.

Our Achievements

With over thirteen years of continuous service across Saudi Arabia, we have built a strong reputation for reliability, technical excellence, and consistent project success. Our work has helped clients improve system efficiency, reduce downtime, and extend the life of their HVAC and facility assets.

Consistent service quality

Strong technical expertise

Proven performance improvements

Long term client partnerships

Sustainable Practices

We integrate environmentally responsible methods into every stage of our HVAC and maintenance operations, ensuring reduced energy consumption and improved system longevity. Our goal is to deliver solutions that protect both client assets and the environment.

Energy Efficiency

Optimizing system performance to reduce power consumption and operational costs.

Smart Maintenance

Using preventive strategies to extend equipment life and minimize waste.

Eco Materials

Selecting safe, durable materials that support long term sustainability.

Responsible Disposal

Handling refrigerants and components safely to prevent environmental impact.

Our Dedicated & Experienced Leadership

Saad Saeed Aljdani

Chief Executive Officer
